MEMORANDUM FOR: Warning Working Group Members

SUBJECT : Agenda for Next Meeting (U)

1. Contrary to my last memo, it will not be necessary to postpone the DCID. I am circulating it today to NFIB Principals, asking their representatives to meet with us next Friday, 16 March, at 1315 in Room 7E62. We will take this up first, then address the NIT paper. I hope CIA and DIA will be able to sort out then who takes the lead on what. (S)

2. The new draft DCID is attached. Changes from the last (31 October) draft are as follows. I'm not wedded to any except the first. (S)

- 3b. OSD footnote dropped, per Pete Oleson.
- 3biii. Changed to conform with 3bxiv (old xiii).
- 3biv. New. Introduces "crisis management in lowest profile possible.
- 3bix. (Old xi). Reordered to reflect increased emphasis on research in SWS.
- Other 3b subparas renumbered to conform.
- 3c. Additional language to emphasize WWG role as Community forum for warning matters. Also, OSD is put back in WWG.
- 3e. Again, emphasis on research. Last two sentences dropped. Point is made in 4bi.
- 4bi. "and other support" moved for better syntax. (S)
